

Web & App Development Documentation

The webpage i created done by updating the current AMDT web page.I used HTML and CSS to create this Website.

I created this new website using the existing web page. I thought that the current website must be updated with the links of current AMDT social media websites. By inserting the social media links directly, I decided to keep the events and other activities up to date. Also, added the testimonials which is not in the current web page and the contact details for AMDT.

Wireframe Sketches

Feedback

These are the comments that i got from my friends abou these website.

Kavi (Web developer)

The page is simple and well designed. If u add more details it will be good.

Sujith (Ui designer)

Colors used for the website is beautiful.

Praveen (Web designer)

There are some grammer mistakes, so please correct it machang.

These feedback were helpful to me to successfully create the webpage.

Finally,
I thank Miss Krishnakripa Jayakumar for assisting me on this process.

Wireframe Website Design

I used the "Balsamiq Wireframes" software to design. All the project files created are included in this Wireframe.

The wireframe shows the AMDT homepage layout. At the top is a navigation bar with links: AMDT, HOME, COURSES, OUR WORKS, ABOUT US, CONTACT, and social media icons (Facebook, Twitter, Google+). Below the navigation is a large banner with the text "Hello, creative people. It's great to have you with us. Our Warmest Welcome!" and a placeholder "Home Background". Below the banner is a section titled "OUR AWESOME COURSES." It contains several boxes: "Graphic Designing", "Animation (3D)", "Fashion Designing", "Web & app Development", "Photography", "Foundation, HND & Degree Courses", and "OUR CREATIVE WORKS". Each box contains descriptive text and small images. To the right of these boxes is a grid of 12 items, each with a title and a small icon: video editing, Coffee Cause, web development, butterfly, concept art, girl stuff, poster design, and animation. Below this grid is a "WHO ARE WE." section with "Our Process", "Our Goal", "Our Mission", and "Our Events | Galleries". At the bottom of the page are "GET IN TOUCH WITH US." fields for Name, Email, Course, Message, and Contact Number, along with a "SUBMIT" button. Social media icons (Facebook, Twitter, Google+, YouTube, LinkedIn) are at the very bottom.

Mockup Website Design

I used the "Adobe Photoshop" software to design. All the project files created are included in this Mockup.

The mockup shows the AMDT homepage with a dark background. At the top is a navigation bar with links: AMDT, HOME, COURSES, OUR WORKS, ABOUT US, and CONTACT. Below the navigation is a banner with the text "Hello, creative people. It's great to have you with us. Our Warmest Welcome!" and a large orange lightbulb icon. Below the banner is a section titled "OUR AWESOME COURSES." It contains boxes for "Graphic Designing", "Animation (3D)", "Fashion Designing", "Web & app Development", "Photography", and "Foundation, HND & Degree Courses". Each box has descriptive text and small images. To the right of these boxes is a "OUR CREATIVE WORKS" section with a grid of images showing various creative projects. Below this is a "WHO ARE WE." section with "Our Approach", "Our Mission", and "Our Events | Galleries". At the bottom are "GET IN TOUCH WITH US." fields for Name, Email, Course, Message, and Contact Number, with a "SUBMIT" button. Social media icons (Facebook, Twitter, Google+, YouTube, LinkedIn) are at the very bottom. A copyright notice at the bottom right states "© Copyright 2005 AMDT. Design by AMDT | Pavith Kumar." and "AMDT | Pavith Kumar".
